

3DIEMME

**Guided Surgery Sleeves
powered by RealGUIDE®**

Sleeves designed and manufactured for predictability and accuracy

Introducing the new 3DIEMME Guided Surgery Sleeves powered by RealGUIDE®, providing flexible guided surgery solutions designed on the basis of a wide range of surgical kits and implant systems.

Our Sleeves are designed and manufactured to ensure accurate implant placement and predictable surgical outcomes. Plan your implants, digitally design surgical guides using RealGUIDE® software, and use these Sleeves within your printed guides for precise and reliable implant placement procedures.

Sleeves are sold exclusively in packs of 10 pieces. Therefore, all listed prices refer to one complete pack of 10 sleeves.
